

HOW TO TUNE YOUR GUITAR

Tune the 5th String harmonic at the fifth fret (A-440) to a tuner (A-440)

Tune the 6th string fifth fret to the fifth string open (unison)

Tune the 4th string open to the fifth string, fifth fret (unison)

Tune the 3rd string third fret to the fifth string 1st fret (octave)

Tune the second string 1st fret to the fifth string 3rd fret (octave)

Tune the first string open to the fifth string 7th fret (octave)

Then check your tuning with these test chords
(note that they contain only roots and fifths--no thirds!)
